ÉSC La Renaissance Graduate Recognized For Her Positive Francophone Leadership

The Lynx family is proud to highlight the various facets of a remarkable graduating student, Chloë Paul. Since grade 9, this student has stood out for her academic excellence and active participation in school life at École secondaire catholique La Renaissance (Espanola).

This positive and hard-working young Francophone leader is appreciated for her open-mindedness and perseverance. Through her actions, enthusiasm and tireless efforts, she was able to contribute to her school's Student General Assembly and various committees. Chloë actively

participates in pastoral activities and fundraising efforts to help those less fortunate in her community. Chloë also represented very well ÉSC La Renaissance as well as the Espanola community during her participation in several sports competitions at the school and community level.

Without a doubt, Chloë is a role model for her peers. All members of the school community appreciate her contributions and achievements during her high school years at La Renaissance. We wish her much success in his studies at the post-secondary level.

École Publique De Blind River Unveils New Name

A Blind River French public school has a new name. Students and staff were joined by Director of Education, Sébastien Fontaine in unveiling the new name for École publique de Blind River late last week.

Fontaine says during the school year, students, staff and the school community were invited to suggest a name for their new school.

He says following that consultation, the name École publique des Pins Blancs, which translates to White Pines Public School, was chosen.

Fontaine say the name refers to the lumbering history of the community, which was founded in 1906 as a direct result of the lumber and sawmill industry. The new school opened its doors last fall and offers Junior Kindergarten to Grade eight programs.

Photo provided by École publique des Pins Blancs and used with permission.

ALS Walk Another Success

Photo - Melanie Poirier walked for ALS once again, her fourth year in taking part in the fundraiser. She walks in dedication to her mother who passed away from the disease last year. Poirier says over the last four years, she has raised \$4,675 for the cause. Photo provided by Melanie Poirier and used with permissions.

The numbers are in, and an Espanola woman is grateful for the support of the community in supporting the annual ALS walk in memory of her mother. Espanola resident Melanie Poirier says she has walked for the last four years, but this year it was special since it was in memory of her mother Rita Poirier who died last year following a five-year battle with the disease, ALS. She says ALS is a disease that gradually paralyzes people because the brain is no longer able to communicate with the

muscles impacting everyone in the family as the person gradually loses their ability to move. She started the annual walk in 2018 to help the association and raise awareness but adds the process has helped her personally in accepting, grieving and now healing from her loss. Poirier says she was successful in raising \$545 this year bringing her total to \$4,675 over the last four, and appreciates the support from the public.
