Search And Rescue Hosting Online Drive For New Vehicle

Photo - North Shore Search and Rescue needs financial help to go towards the purchase of a new equipment vehicle. Photo by Rosalind Russell

By *Rosalind Russell* - North Shore Search and Rescue needs to replace one of their aging vehicles.

According to the release, with such a large and remote area of coverage, they rely heavily on vehicles and equipment to respond wherever and whenever they are needed.

The SUV, which allows them to transport team members and equipment to calls for service, is at a point where it needs replacing.

No volunteer search and rescue teams in the province of Ontario receive any regular funding from any level of government, be it municipal, provincial or federal, and search and rescue in Canada is a free service.

Domtar Makes Largest Private Land Conservation Agreement In Canadian History

Domtar, a division of Paper Excellence, has made what is being called the largest private land conservation agreement in Canadian history.

Senior vice-president of commercial, pulp and paper Rob Melton says the company is excited to be donating over 1,400 square kilometres of land near Hearst, Ontario, to the Nature Conservancy of Canada.

Melton says the land will be used for research and conservation adding the

company has not had any operations in the area for several years.

He adds the transfer of ownership of the property for \$7 million is below the appraised value.

Conservancy program director Kristyn Ferguson says conservation opportunities of this magnitude are incredibly rare, and the conservancy is thrilled to have the chance to work at this scale to make a difference for nature, wildlife, and people.

\$27,000 OTF Grant Helping Massey's Museum Keep History Alive

In 2021, the Massey Area Museum received a \$27,000 Community Building Fund from the Ontario Trillium Foundation. These funds went towards salaries for the museum curator and summer students, operating costs and equipment. Additionally, this grant assisted with PPE and COVID related modifications and supplies.

"The \$27,000 that was granted from OTF will go a long way", said Mike Mantha, MPP for Algoma-Manitoulin. "Having those dollars going towards the operation, the upkeep, and also as a major investment – this is an economic engine, this is what attracts people to this community and what makes it grow."

"We live in a small community and the museum and our libraries are the cultural centers of our community, and we're lucky to have them", said Kevin Burke, Councillor, Sables-Spanish Rivers Township. "This grant ...is a step in the right direction in

keeping our museum for the future."

The purpose of the Massey Area Museum is to collect, preserve, research, and exhibit these objects which will serve to illustrate the settlement and development of the Township of Sables-Spanish Rivers and Sagamok Anishnawbek, up to 1968, the year the museum was founded. For more information, please visit the website at: www.masseyareamuseum.com

The Ontario Trillium Foundation (OTF) is an agency of the Government of Ontario, and one of Canada's leading granting foundations. Last year, nearly \$112M was invested into 1,384 community projects and partnerships to build healthy and vibrant communities and strengthen the impact of Ontario's non-profit sector. In 2020/21, OTF supported Ontario's economic recovery by helping non-profit organizations rebuild and recover from the impacts of COVID-19.

Phragmites clean up set for 2022

There will be a major effort to get phragmites under control in a couple of areas on Manitoulin Island this summer.

Judith Jones, the coordinator for the Manitoulin Phragmites Project, recently shared her knowledge on what's been called Canada's most invasive plant in a series of two webinars highlighting the work that will be carried out this year.

She says phragmites is a very tall, robust

grass with wide leaves and hard, stout stems, almost like bamboo that can grow to over 15 feet tall and take over natural vegetation.

Jones says this year the cleanup crew will focus on Lake Wolsey, Julia Bay and Roszel Bay.

She adds they are also in the process of surveying phragmites along the North Channel from Sheguiandah to Cook's Dock.

Parenting For Positive Mental Health Focus Of Webinar On May 5th

The Rainbow District School Board is inviting parents or guardians to join a webinar on Parenting for Positive Mental Health.

Communication manager Nicole Charette says as part of Children's Mental Health Week, the webinar will be presented by an expert focusing on connection and setting limits.

She says it will be presented by

Amanda Lamb, Director of the Centre for Family Initiatives at the Pine River Institute on Thursday, May 5th from 7 pm to 8 pm.

Charette says teachers will also access links to social media posts, activities, videos, quizzes, articles and classroom discussion prompts organized by age group.

Adults are welcome to register at the following link: bit.ly/pineparentpresentation

With a focus on attunement, connection and setting limits, organizers say the webinar will help parents/guardians understand their children's behaviours and development to respond with intention and promote mental wellness and growth. Participants will gain an understanding of their parenting style and the challenges parents/guardians face when children

push back.

Lamb brings a deep commitment to the well-being of youth and their families through empathy, acceptance, compassion, positive communication and relationships. She says she hopes that by educating and supporting families early on, they can foster greater resilience and sustain their mental wellness through difficult times, including life transitions.

Uranium Refinery Business Could See Boost

Cameco President and CEO Tim Gitzel says the invasion of Russia in Ukraine could mean increased business in the uranium refinery business, which would affect its Blind River and Port Hope refineries.

Gitzel, who was in the Czech Republic recently, says the EU has vowed to cut off Russian imports of oil and natural gas as part of their sanctions against Russian businesses.

He says while it is unfortunate what is happening in Ukraine, the sanctions could mean more business for Cameco.

He says Russia supplied about 30 percent of nuclear reactor fuel and is a major competitor, but the sanctions could move their company forward in nuclear fuel production.

With the two refineries in Canada and its workforce of some 140 employees, he adds the company is poised to take a leading role in supplying the world market.

While in Blind River, he also presented a \$10,000 donation to the food bank and \$25,000 to the local community centre following a tour of the two facilities.

Two Major Events Returning To Manitoulin Island

Lion club members are busy preparing for the return of not one, but two major events on Manitoulin Island.

The Southeast Manitoulin Lions are prepping to bring back Summerfest with council passing a motion that the municipality will provide the Manitowaning arena and grounds at no cost to the club for the celebrations, which will take place in July.

The Little Current Lions are also laying the groundwork for the return of Haweater Weekend, its premier event held on the August long weekend in Little Current. Plans are at the preliminary stage and both clubs say any organizations or groups who want to take part as volunteers

are more than welcome. Visit their respective Facebook pages for more information.

50TH ANNIVERSARY

Who would guess that a small decision
Would affect the rest of your life
How being the best man at my sister's wedding
Led to meeting my future wife
As they watched the bride come down the aisle
It was the bridesmaid that caught my eye
She was the waitress at the Arena Grill Restaurant
I had a crush on, but was too chicken to try
We spent the celebration together
Had a great time and some kisses as well
I gave her my ring to go steady
Her cute smile drew me out of my shell
For a long time, we two went steady
Through all our good times and bad
Our relationship kept getting stronger
A decision on our next step was had
On May 6, 1972 we were married
Though many said we would not last
We've proven them wrong cause on this May
Our 50th Anniversary will pass
That 50 year span has brought me a family
Three great kids so much like their mom
And a woman I'm blessed to have with me
No matter what in the future will come
For 50 years you've been my sweetie
The one on whom I could depend
I know that we'll continue to be here
Cause our kind of love never ends

Happy 50th Judy
