Let There Be Light

Photo: Town employee installing solar lights at the town track/skating oval.  
Photo taken by Rock Taylor

**By Rock Taylor** - The Espanola Lions are pleased to announce that after dark skating at the oval this winter will be safer with the installation of solar powered lights. Three poles provided and installed by public works at the south end and west side of the oval each hold two 900/1200W solar units to brighten those darker areas. These lights purchased by the Lions, will also allow them to work on the ice later at night when temperatures are optimum. We don't mean to be rushing the winter season, but we do want to be ready to maximize your enjoyment of the skating oval when the time arrives.

## Indoor Soccer

**By Grant Lewis** - What happens when you move one of the most popular games played outside...inside? Just as much fun, lots of activity, parent involvement...and more. Just ask the eighty odd kids involved in indoor soccer in Espanola. Games are played Friday evenings in the new Sacred Heart/Ecole Renaissance gym starting with 7 to 10 year olds followed by 10 to 13 and finally over 18 year olds. Rules are much the same

except the nets are smaller and the ball is a little heavier. The refs are all volunteers. The use of the walls makes it far more interesting with no throw ins. Many thanks to Paul Kallioinen and his team of volunteer coaches and refs. The Espanola Lions is pleased to support this great activity for our young people. Dave Bousquet gladly presents a cheque for \$1,000 to help kids stay active and involved during the winter months.
