Around 30 people took in the walk this past Sunday at the Oval in Espanola, sharing the message of helping individuals one at a time.

Several service agencies also took part sharing their information in how to help people on an individual basis.

September is Childhood Cancer Awareness Month

on Friday, September 19th from 10 am to 2 pm at the studio at 90 Gray Street in Espanola to raise funds for the organization.

FreshCo is also assisting with a raffle for a basket full of goodies for a \$5 donation

and The Beer Store is collecting empties all month long, just tell them it is for the kids.

The funds raised will be presented at the Gold Soiree on Saturday, September 27th in Sudbury.

Demolishing the Super Stack begins

(Clean AER) Project.

Gord Gilpin, the director of Ontario Operations for Vale says the superstack and copperstack have been iconic landmarks in Greater Sudbury for decades, and while they appreciate that the city's landscape will look different after the structures are dismantled, the business has evolved, improved over time and this process is part of that evolution. The interior work was carried out over the last year, and now the exterior removal has begun from the top, down.

Two specialized access elevators have been attached to either side of the stack to transport workers up and down, and a two-tier platform has been installed at the summit zone.

A drilling machine is being used to break down the concrete, says Vale, with the rubble transported down the inside of the chimney. The dismantling is expected to take three to five years to complete since there will be no work carried out in the winter months. Photo provided by Eve Garber and used with permissions.

By Rosalind Russell - Vale Base Metals is moving forward with the dismantling of the copperstack and superstack at the Copper Cliff Smelter Complex.

According to the release, the structures were decommissioned following the successful completion of the approximately \$1 billion Clean Atmospheric Emissions Reduction

St Joseph – Sudbury General Hospital Demolishment Underway

By Rosalind Russell - Another Sudbury landmark is being demolished.

St. Joseph's – Sudbury General Hospital demolition began early last week and over half the building has already been demolished.

Heavy machinery is on site at the Panoramic Properties-owned old hospital building on Paris Street to tear down the historic structure, built in 1950.

Panoramic Properties has owned the building since 2010, but it remained

vacant when the deal for a condominium project failed to move forward.

The company's latest plan, a 530-unit residential property consisting of three towers, was given approval by council last year.

According to the city, the company has told them the new project is to begin in the Spring of next year, there has been no definite timeline issued publicly by Panoramic.
